

Early Childhood Education Diploma

Program Outline

PROGRAM NAME: *Early Childhood Education Diploma*

PROGRAM HOURS: 1788

PROGRAM DURATION: *81 weeks, full-time*

PROGRAM DESCRIPTION

Pacific Rim's Early Childhood Education Diploma is issued when a student has completed all three certificate programs – the Basic Early Childhood Education Certificate, the Infant/Toddler Educator Certificate and the Special Needs Educator Certificate. This enhanced qualification allows students to meet the developmental, social and cognitive needs of infants, toddlers, preschoolers and children with special needs.

CAREER OCCUPATION

This program prepares graduates to work in group licensed child care facilities as a certified Early Childhood Educator (ECE), Infant Toddler Educator (ITE), Special Needs Educator (SNE) and in related careers in the sector of Early Childhood Education.

LEARNING OUTCOMES

At the end of this program, students will be able to demonstrate a knowledge of effective health, safety and nutrition practices; knowledge of developmentally appropriate practice; skills in observing and recording behaviours of young children; a positive approach to guidance and discipline in a child care setting; an understanding of the type of environments and experiences which contribute to the growth and development of the young child, including children who need extra support; an understanding of the value of learning through play; how to facilitate creative expression; the ability to communicate effectively with children, parents, co-workers and the community; and the roles and responsibilities of administering an early childhood program.

METHODS OF EVALUATION

The final grade for each course will be calculated and weighted based on grades received for the assignments and exam required for each course. The final outcome for each practicum will be calculated and weighted based on satisfactory completion and submission of the assignments, activities and evaluation(s) required for each practicum.

GRADUATION REQUIREMENTS

A student is eligible to graduate from a program when he/she has successfully completed all courses and practicums in that program. Students are required to receive a passing grade of "C" or higher for all academic courses and a "Pass" for all practicums. Upon completion of all three Certificate programs, students are granted an ECE Diploma.

Transfer students must have completed at least the majority (51%) of the training through Pacific Rim Early Childhood Institute in order to receive a Certificate or Diploma. Students completing a certificate or diploma that have not taken the majority of the program through PRECI may still order and receive a transcript of courses.

REQUIRED TEXTBOOKS

A complete list of required textbooks can be found in our [textbook list](#).

TECHNOLOGY REQUIREMENTS

To successfully complete the program, students will need to have regular access to a reliable computer with access to the Internet, a personal email account, Microsoft Word (or an equivalent to read and write .doc or .docx files), and Acrobat Reader (or equivalent to read .pdf files). In addition, students will require access to a printer and scanner.

FEES AND OTHER EXPENSES

Exam proctors may charge a fee to supervise the final exam. This fee will vary depending on the proctor a student has selected. The proctor fee is usually between \$30 and \$75 per exam.

PENALTIES

Students are required to abide by the ECEBC [Code of Ethics](#) at all times, submit original work (no cheating or plagiarism), respect all staff members and members of the community, submit assignments on time, submit extension requests on time (if required), submit complete assignments which follow the grading criteria, act professionally, maintain a clear criminal record check for the purposes of working with children, and comply with all the requirements of the Student Enrollment Contract. The “Academic Dishonesty Policy” and “Dismissal Policy” are available to read in the [Student Handbook](#).

Program Organization

This Basic Early Childhood Education Certificate Program is made up of the following courses, which should be taken in the order listed. The learning of each course will build on and reinforce the learning of the previous course. The Basic ECE Certificate must be completed prior to enrolling in post-basic Infant Toddler Educator and Special Needs Educator courses.

There are two Post-Basic Certificate Programs, which are made up of the following courses, which should be taken in the order listed. The learning of each course will build on and reinforce the learning of the previous course.

Students who complete all three certificate programs (basic, infant/toddler and special needs) will receive the Early Childhood Education Diploma. Students wishing to take both post-basic certificate programs are not required to repeat Infant/ Toddler Growth and Development, Working with Families or Centre Administration.

Basic ECE Certificate

- **Health, Safety and Nutrition** (10 weeks – 45 hours)
- **Child Growth and Development** (10 weeks – 98 hours)
