

Textbook Information

General Information

Pacific Rim Early Childhood Institute (PRECI) uses both textbooks and online resources in the course materials. Please ensure you have purchased the required textbook prior to enrolling in the associated course. Double check you have the correct title, author, and edition.

Students are encouraged to purchase the required edition of the textbook. Textbook content can vary significantly between editions and outdated editions may not reflect current practices or be compatible with our course materials.

Required textbooks may be purchased from any source. For convenience there are external links to most of the textbooks on [our website](#). Many of the textbooks are available as eBooks for purchase or rental from services such as VitalSource.

In addition to textbooks, students may also be required to purchase a 2-year license to Science of Early Childhood Development resources. The 2-year subscription is approximately the cost of a single textbook and the resource can be used for many courses over the subscription period.

Science of Early Childhood and Development Resources

Many Pacific Rim Early Childhood Institute (PRECI) courses require access to the Science of Early Childhood Development (SECD) “North American Edition” and/or the “Child Development Primer”. These resources are considered “living textbooks” which are prepared and updated frequently by Canadian Early Childhood experts. If one or both of these resources is required for a course, they will be listed in the “Required Textbook” section below along with other required textbooks.

SECD Access

Access to the SECD resources for the “North American Edition” or the “North American Edition + Primer” is obtained through purchase of a “Single User License + Primer” on the [SECD Website](#). Each license is valid for two years from the date it is purchased. When choosing a subscription, carefully review the textbook list below to determine if you plan on taking a course that requires the Primer in the next two years. If you plan on taking even one course that requires the Primer during that period, we advise that you purchase the “[North American Edition + Primer](#)” license. The “Primer” portion is significantly discounted when purchased as part of a package with the North American Edition. Only purchase the standalone “[North American Edition](#)” if you do not plan on taking any courses that require the Primer in the next two years.

Required Textbooks

Basic Program

Early Childhood Educator Certificate

Health, Safety and Nutrition

Marotz, L. R. (2024). *Health, safety, and nutrition for the young child* (11th ed.). Cengage. ISBN: 9780357765807
